

THE FUTURE OF WORK

TECHNOLOGY, INEQUALITY, CORPORATIONS
& SOME FREELANCING MYTHS

Will robots eat our jobs?
Will the gig economy destroy employment?
Will inequality get better or worse?
Will we have more or less freedom?
Will unions disappear?
Why does this have anything to do with the banks?

All these questions and more will be addressed by
Professor David Peetz in his lecture on the Future of Work.

From 5:30PM
